

MC LowQui

Metalheadz, Essence of Chi / UK

The last 2 years have been very productive for MC LowQui and 2006 should be just as eventful.

Touring extensively with Goldie and the Metalheadz crew, LowQui ventured all over the UK and Europe and as far as Australia and New Zealand in 2006. He also was seen regularly alongside Artificial Intelligence, for their label launch tour as well as many other heavy hitters in the scene including Andy C, Shy FX, Fabio and the Movement Crew.

A versatile MC, he can flow effortlessly at events for the breaky heads such as Bassbin, to the big raves promoted by Drum'n'Bass Arena, while at the same time offering lyrics that really say something meaningful. Watch out – and listen up -- for this man in 2006!

Extended biography:

2005 has been a successful year for MC LowQui. He has been host to a bbc.co.uk/1Xtra live broadcast on behalf of Drum and Bass Arena, Mc'ing alongside Fabio, has debuted at the award winning Movement Club and is currently touring Europe with Goldie and the infamous Metalheadz camp, including gigs all over Europe as well as a tour of Australia and New Zealand with Goldie.

LowQui has been a regular on the mic now for over a decade; he has a lyrical flow that has to be seen to be believed and his lyrical delivery regularly wins over the most demanding ravers, even on the notoriously hard to please London scene.

With a distinctive, intimate style, LowQui grew up on the hardcore jungle techno scene back in the day, and the styles of the legendary Stevie Hyper D and MC GQ are resonant in his flow and delivery. As the beats and basslines have progressed, so his lyrics have evolved and moved onto a higher level. LowQui believes that the music comes first, with sporadic rhymes subtly overlaid to enhance the atmosphere at any venue, large or small.

Knowledge magazine interviewed LowQui for its "New Blood" feature on the bright young things of drum n bass in its February 2004 edition. Just a few weeks later, LowQui became a Metalheadz resident and he is now part of the Metalheadz 10th Anniversary Tour. Knowledge couldn't have been more accurate in their prediction!

LowQui's popularity has soared, what with breakbeat.co.uk forum members voting him to MC at legendary rave DESIRE and Artificial Intelligence inviting him to be guest MC for ATM Magazine Cover CD (issue 61).

MC LowQui is making his presence felt globally with an intelligent, constantly evolving MC style that not only works with the basslines of both old and new skool drum and bass DJ sets, but, more recently, is being used with nu skool breaks and also with live acts.

LowQui frequently plays at both international and national events, festivals and clubs, Mc'ing alongside headlining DJs. He has worked with a diverse range of DJs and crews: Metalheadz, Essence of Chi, Traffic/Future Thinkin, Technicality, Dread Records, Bassbin, Formation Records, Technique, Best of British, Uncertified, Bounce, Kinetic, Play!, Optical Noise, Dekefex, Cyberfunk Records, Vinyl Touch and many many more.

LowQui has also played a vital part in pirate, internet and overseas radio stations, including: Lifefm.co.uk, Ministry Of Sound & Ruud Awakening 104.2FM, breaksfm.com, Flex 103.6 FM, groovetech.com, drumandbassworldwide.com and Feierwerk FM (Munich).

LowQui's emphasis is firmly on making people dance & enjoy themselves the whole night through...He aims to keep spreading out his freestyle mc-ing across the world... having lots of fun along the way.
